

How to Adult Part 2

Get Out

For page 2 of the folio, it is time to find somewhere else to live and move out.

Find Accommodation

- Guided by your **Net income**, determine how much you will spend on rent.
 - Keep in mind you will have other expenses.
- Decide if you will live by yourself or share with others
 - If you share, describe how will you split the rent?
- Look online for a house to rent
 - www.realestate.com.au is a good place to start (make sure you click for **rent**)
 - Once you've found a place, include:
 - Picture of the house
 - Address
 - Details (bedrooms, bathrooms, special features etc)
 - Why this is a good house/apartment for you?
 - Cost per week

Pay the Bills

- Decide which bills you will have to pay
 - Water / electricity / internet / gas / phone?
 - This is difficult to work out before you just get a bill (welcome to adulthood)
 - You could research an average bill or ask your parents?
 - If you're sharing, calculate how much is your share?

Budget for Page 2

- Go to <https://moneysmart.gov.au/>
- Click on the Hamburger menu in the top left corner
- Find '**Budgeting**' and then '**Simple Money Manager**'
- Put information to form a mini budget.
 - You will only have a couple of sections filled (eg 'Pay after tax', 'Housing' (which includes electricity/gas), and 'Phone and internet').

How much do you now have left over each week?

I have \$_____ per week left in my budget
